

SINCE 1963

The National Kitchen & Bath Association is the world's leading trade organization dedicated to all sectors of residential kitchen and bath design and remodeling.

NKBA strives to inform, empower and connect its members and the industry through professional development, certification and education programs; exclusive market research, and events to showcase the latest products, technology and innovation in the space.

NKBA elevates the standards of design and installation to maintain an industry-wide reputation of integrity, and provide objective and principled thought leadership to spark spirited discourse for the enhancement of the industry at large.

NKBA PROGRAMS

This premier kitchen and bath marketplace is an annual event that brings together more than 30,000 qualified KBIS attendees and nearly 100,000 Design & Construction Week® visitors — the largest annual gathering of the residential design and construction industry. Owned by the NKBA and produced by Emerald Expositions, KBIS is co-located with the National Association of Home Builders' International Builders Show (IBS), as part of Design & Construction Week, giving you unparalleled access to the newest products, cutting-edge technologies and critical thought leadership.

NKBA is the Global Connector for the kitchen and bath industry — sharing experiences, insights and innovative ideas; forging relationships, and striving to inform, inspire and empower the K&B community around the world.

Stand out as an NKBA-certified professional. The CKBD credential validates your skills and experience to clients and employers, giving you a competitive advantage and a respected voice in the field. NKBA also offers micro-credentials through Specialty Badges.

NKBA's Thirty Under 30 program identifies the future leaders of the K&B industry.
